ASSIGNMENT NO: 13

Title: Write a C++ program which copies the contents of one file to another

Name: Mokshada Hejib

Class:SY1 PRN No:B25ET1013 Batch:A

```
#include <iostream>
#include <fstream>
using namespace std;
int main()
{
ifstream fs;
ofstream ft;
string str;
char sourcefile[50], destinationfile[50];
cout << "Enter Source File with Extension: ";
gets(sourcefile);
fs.open(sourcefile);
if (!fs)
{
cout << "Error in Opening Source File...!!!";
exit(1);
}

cout << "Enter Destination File with Extension: ";
gets(destinationfile);
ft.open(destinationfile);
```

```
if (!ft)
{
cout << "Error in Opening Destination File...!!!";
fs.close();
exit(2);
}
if (fs && ft)
{
while (getline(fs, str))
{
ft << str << "\n";
}

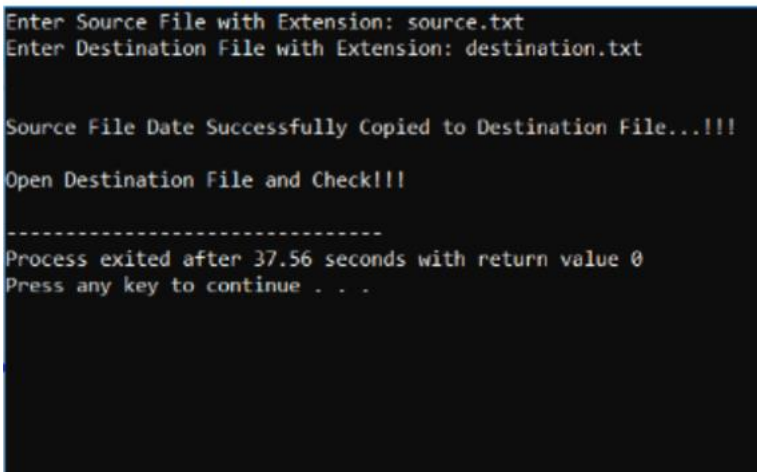

cout << "\n\n Source File Date Successfully Copied to Destination File...!!!";

}
else
{
cout << "File Cannot Open...!!!";
}

cout << "\n\n Open Destination File and Check!!!\n";

fs.close();
ft.close();
}
```

Output:

Enter Source File with Extension: source.txt
Enter Destination File with Extension: destination.txt
Source File Date Successfully Copied to Destination File...!!!
Open Destination File and Check!!!
Process exited after 37.56 seconds with return value 0
Press any key to continue . . .
